Llandegla shooting ground Becomes

Fauxdegla Premier Shooting Ground

As most people are aware, Llandegla Shooting Ground has been around since the seventies and boasts some of the nicest scenery in the country, as well as offering ALL disciplines to cater for every shooter's requirements. Unfortunately over the years some parts of the ground and disciplines have suffered, and of late it has looked tired and needs to be brought back to life. It does, however, boast a beautiful log cabin with log burning fire which was built within the last few years by the prior owner, able to cater for individuals or corporate parties, seating up to 50 people, .

New owner MIKE FAUX has set himself a challenge to bring the ground back to INTERNATIONAL STANDARD. He believes that the ground should cater more for the trap shooter, as it was predominantly built for that propose in mind, although English sporting, Fitasc and compact sporting will be on the agenda with the help of Ben Hushwaite, World English Sporting Champion, World Compact Champion and World Fitasc Runner-up.

Mike informs that he will be doing some refurbishments over the next few months, which will include cleaning up the ground, painting all the trap houses, recoating the entire shooting cabin and repainting the floors, introducing other disciplines, new acoustics in the trap houses and regular registered competitions for most disciplines; along with corporate services and one to one instruction.
