

Clarification on the 2019 England Selection Process

Following on from announcing the revised England Team Selection Process for 2019 – Striving for the Strongest Team, we have received a few queries on the category selection that we wish to clarify.

- The points gained will primarily decide the category positions by creating the strongest team across all categories (as a whole). This will then be reviewed by a panel made up of The England Team Co-ordinator, The CEO and (or) the Operations Manager, a Board member and the discipline Team Manager.
- Any Lady, Junior, Veteran or Super Veteran member may be selected to participate within the Senior (open) team, depending on what would make the strongest team across all categories. It is important to remember that the England Team is one team, whether a senior, lady, junior, veteran or super veteran.
