ROYAL MARINES IN NEED

“ The Royal Marines Charity have been vital in helping me in my transition from military to civilian life. They put me in touch with vital business contacts and helped me with funding towards my new personal training business. Without The Royal Marines Charity it is safe to say I would not have come this far in this relatively short period of time. All I can say is a massive thank you to everyone that support this fantastic Charity. ”

Lance Corporal Jamie Falvey

“ I thought that I needed on behalf of me and Tess to drop you a line to express our absolute gratitude at allowing us the opportunity to have a really life changing experience. The work and opportunities you guys provide to us is without doubt life saving and changing, I still don't think that you even realise how much this has meant to me and my family and I will endeavour to do whatever I can to help and support The Royal Marines Charity in the future. Truly truly thankful for everything. ”

Corporal Paul Vice MC

“ Without the help of The Royal Marines Charity, I definitely would not be in the position I am today. I have been amazed by the level of understanding and continued support that, even two years down the line The Royal Marines Charity are continuing to offer me. ”
